3

4 1. SAML 2.0 WebSSO Protocol Profile

5 This OPTIONAL profile defines the SAML 2.0 Web Single Sign-on Protocol Profile for eduGAIN Service.

6 This profile will describe best practice in eduGAIN for doing WebSSO. Questions remains on how
7 restrictive/inclusive eduGAIN should be with regards to Single Sign Off, SAML 1.1, SAML2, SAML2int-profile,
8 etc etc.

9 This profile is of a technical character and will be developed over the coming weeks.
